

Mugana Hospital Project

St. James students showed their team spirit and raised over \$1,000 to help the Mugana Designated District Hospital in Tanzania.

Students were given an opportunity to make a donation to the Mugana Hospital project and in turn were allowed to wear either a Cubs shirt or a top with the colors of the Tanzanian flag. Even Principal Judy Pappas and many other faculty staff participated.

The Mugana Designated District Hospital Services the 200,000+ population of the district of Missenyi, including Father Gilbert's home village of Bwanjai. Father Gilbert is grateful for all of the support with this essential project.

Students also have an opportunity to support the cause during the rest of the school year by making small donations when they come for second helpings at lunch.

And special thanks go out to Pat Farrell and the Student Council for making this event possible.

Adults interested in learning more about this cause, and/or making a donation, can visit the Facebook page - <https://www.facebook.com/MuganaProject/> or the campaign page - <https://www.thebridgesofhope.com/campaign/mugana-project>
