

# Bank Day

Bank Day at St. James School is super easy and fun for kids. Bank day happens twice a month. The dates are listed on the school calendar and are typically every other Tuesday. Email reminders will go home as well.

## So What is Bank Day you ask yourself?

Bank Day is where your child comes to school with any deposit. Even a dime will do! Your child will visit us at the window next to hot lunch, make their deposit and the best part is, they Select A Prize!!

## How to Start!

1. **Head over to Village Bank and Trust and open a Junior Savings account.**
2. **Once you receive an account number visit [www.schoolsavings.com](http://www.schoolsavings.com) and add your student. Don't forget to register a valid email address to track your child's deposit alerts.**
3. **Your child will make a deposit at school and you will immediately receive an email with the deposit information. DONE! Now interest will grow and your child has officially become a SAVER!**

We know this might seem like a bit of work getting to the bank, however, we believe that besides, reading, math, and science the value of banking is a powerful lesson that our kids should be taught today as well.

We could all use some help raking those leaves, emptying the dishwasher, and sweeping the floors so why not make those Bank Day Chores and start your child on the path to saving. *Just imagine what that Junior Savings account will be by 8<sup>th</sup> grade graduation!*

Thank you,

Grace Smith and Diana Volpe

We hope to see all those smiling saving faces next Tuesday at Bank Day!
